

# Unearthing the Environmental Impact of human Activity : A Global CO<sub>2</sub> emission Analysis.

Our project is basically depends on the over all view of CO<sub>2</sub> emission in the world. Global warming is one of the biggest challenges currently being faced by the race of the human race, although correlation is not causation. This project deals with the CO<sub>2</sub> emission in the world and the pie chart tells about the overall range of carbon dioxide. This analysis global CO<sub>2</sub> emission across countries from 1975 to 2020. The dataset contains a record of CO<sub>2</sub> emission by each country and region of the earth, here we going to analysis visualise country wise and overall CO<sub>2</sub> emission on Earth.

## Empathy map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users' experience and mindset.
